

# Gathering Up God's Promises

A negative thinker sees a difficulty in every opportunity and a positive thinker sees an opportunity in every difficulty. Realise that there is power in the words you speak to yourself. Guard your mind against negative thoughts because what you feed your mind today will affect your tomorrow.

Feed your mind with God's promises because they are true. Change your words. Change your mind-set and reflect on the truth in God's promises.

- What are your negative thoughts regarding this new scholastic year?
- What is God promising in your situation?
- Make a decision to hold on to God's promise in this situation.
- Write your prayer and stick it on the board.
