

European Week for Waste Reduction

EUROPEAN WEEK
FOR WASTE
REDUCTION

European Week for Waste Reduction (EWWR)

Between the 19th and 27th November

Brings together citizens from across Europe

Promotes awareness on waste management and sustainability

Dumping Waste in our World

A scenic landscape photograph featuring a lush, green forested hillside on the left. The foreground and middle ground are filled with a thick, golden-brown mist or fog that obscures the lower parts of the valley. In the background, more forested hills are visible under a bright, hazy sky with soft clouds. The overall atmosphere is serene and natural.

CREATING RESOURCES FROM WASTE

Waste is out of Fashion!

Our Challenge: Reduce Waste

HOW?

Reducing Waste

Avoid plastics and single use containers (lunchboxes, water bottles, grocery bags) and utensils.

Shop local to avoid travel miles and excessive packaging.

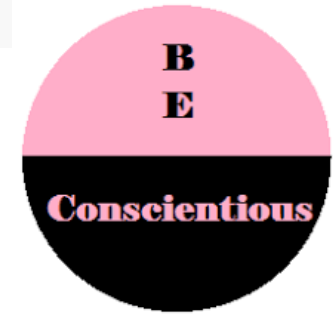

Use digital means to avoid the excessive use of paper. Print only when necessary and make sure to use both sides of the paper.

Recycle and reuse items.

Donate items that are still in good shape. Buy second hand items.

Buy only what you need.

Buy items that will last.

Be aware of the waste you are generating.

Support sustainable goods.

**We are counting on you.
Thank you**
